Overview

We're building an exciting Trading Card Game, and we're seeking a few great Unity developers who can join our rapidly growing team to help build this game for both desktop and mobile platforms.

We're looking for individuals with strong programming skills who are interested in emerging tech, and have a passion for gaming (experience with trading card games is a plus!).

We're a 100% remote working team, for the most part based in Australia (East Coast), and looking for engineers who are seeking a well-paid full-time Senior role.

The Role

- Join our growing team of developers and work on building various game features within Unity.
- Assist with the development and deployment of the game on various platforms (Browser / PC / Mac / Android / iOS)
- Become part of our vibrant and collaborative team, bringing fresh ideas to the space, and working to lift the bar of what is possible.
- Is well remunerated, consisting of a high base salary (contingent on expereince) and additional incentives.

Your Skills

- At least 5 years experience working in the gaming space on a professional level.
- Great communication and collaboration skills
- Shipped at least 1 or 2 major projects on iOS/Android/PC/Mac.
- Have worked with live-ops and continuing development of an existing game.
- Strong experience with Unity.
- Strong background in C#.
- Excited and motivated to build games.
- A tertiary degree or an equivalent qualification / experience.
- Flexibility and the ability to take on and juggle multiple responsibilities.
- Strong attention to detail and the ability to work in a self-directed mannger.

How to Apply

Your application should include your CV, and a brief introduction about yourself.

We're interested to hear what you're proud of in your work history, why you're leaving your current role, and how soon you could start.

Due to the volume of enquiries, only sucessful candidates will be contacted.

Employer questions

Your application will include the following questions:

Which of the following programming languages are you experienced in?

Which of the following statements best describes your right to work in Australia?

How many years' experience do you have as a Game Developer?

Be careful

Don't provide your bank or credit card details when applying for jobs.
